Declares under our sole responsibility that the following electrical heating elements, group 20, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, 36, 40, 41, 43, 50, 52, 53, 55, 56, 58, 80, 81, 90, 91, 92
are in conformity with the following directive(s), standard(s), or other normative document(s):

General

- A heating element is a component for an appliance and therefore requires no CE-marking.
 - The heating element is not produced for the end-user. The device in which the heating element is fitted must adhere to the requirements of the CE-marking.
 - Heating elements produced by JEV, therefore have no CE-marking.

Directive 2014/35/EU of the European Parliament and of the Council of 26 February 2014 on the harmonisation of the laws of the Member States relating to the making available on the market of electrical equipment designed for use within certain voltage limits:

- The heating element is tested in accordance with the Low Voltage Directive (EN60335-1) concerning installation of heating elements in devices. The heating element must be installed and used in such a way that the requirement for the product is met, and the working specifications of the heating element are not exceeded.
 - Consequently, all electric heating elements from JEVI adhere to the requirements of the Low Voltage Directive.

Directive 2014/30/EU of the European Parliament and of the Council of 26 February 2014 on the harmonisation of the laws of the Member States relating to electromagnetic compatibility:

- All heating elements from JEV are with ohmic resistance exclusively. This causes no electromagnetic disturbances whatsoever, and the heating elements are not affected by electromagnetic disturbances. Consequently, the EMC directive is not relevant for electric heating elements from JEV.

Directive 2011/65/EU RoHS of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment as amended by 2015/863/EU.

- EN 63000:2018 Technical documentation for the assessment of electrical and electronic products with respect to the restriction of hazardous substances

It remains the responsibility of the end user to install and operate the appliance according to the rules and regulations that are applicable.

Declares under our sole responsibility that the following electrical heating elements, group 20, 22, 23, 24, 25, 26, 27, 28, 29, 30, 32, 33, 34, 35, 36, 40, 41, 43, 50, 52, 53, 55, 56, 58, 80, 81, 90, 91, 92
are in conformity with the following directive(s), standard(s), or other normative document(s):

General

- A heating element is a component for an appliance and therefore requires no UKCA-marking.
 - The heating element is not produced for the end-user. The device in which the heating element is fitted must adhere to the requirements of the UKCA-marking.
 - Heating elements produced by JEVI, therefore have no UKCA-marking.

Electrical Equipment (Safety) Regulations 2016

- The heating element is tested in accordance with the Low Voltage Directive (EN60335-1) concerning installation of heating elements in devices. The heating element must be installed and used in such a way that the requirement for the product is met, and the working specifications of the heating element are not exceeded.
 - Consequently, all electric heating elements from JEVI adhere to the requirements of the Low Voltage Directive.

Electromagnetic Compatibility Regulations 2016

- All heating elements from JEV are with ohmic resistance exclusively. This causes no electromagnetic disturbances whatsoever, and the heating elements are not affected by electromagnetic disturbances. Consequently, the EMC directive is not relevant for electric heating elements from JEV.

The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012

- BS EN 63000:2018 Technical documentation for the assessment of electrical and electronic products with respect to the restriction of hazardous substances

It remains the responsibility of the end user to install and operate the appliance according to the rules and regulations that are applicable.
